

YAKABOD INSIDER THREAT CASE MANAGER

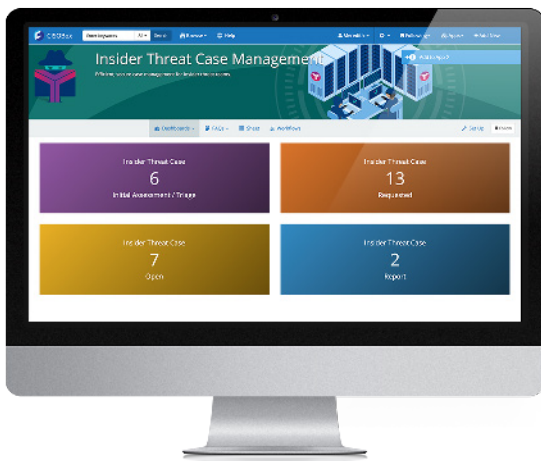

TAKE CONTROL OF INSIDER THREATS

WHERE EFFICIENCY MEETS SECURITY

Every day, organizations face internal risks that endanger their most valuable digital and physical assets. At the same time, insider threat program managers are forced to rely on ad hoc tools like spreadsheets and email that make effective case management extremely difficult.

MANAGE YOUR CASELOAD WITH EASE

Yakabod Insider Threat Case Manager operates as a single, central repository for evidence, artifacts, and documentation. In-app messaging and systematic workflows help you collaborate with your team to manage more cases with greater speed and confidence.
